

Common Myths About Custom Built Homes

Here are some common myths about custom built homes:

1

MYTH

They Are Pricey

REALITY

Custom homes can be built within budget based on the size, design and facilities.

2

MYTH

Custom Home Building Is Time Consuming

REALITY

Quick decisions and proper coordination between the client & custom home builder can reduce the time consumed in building a custom home.

3

MYTH

Price Of Land Is Included

REALITY

Unless the builder is selling pre-built homes, the price of property lot is not included in the custom home building cost quoted by the builder.

4

MYTH

Prospective Home Owner Needs To Have Thorough Knowledge Of Architecture

REALITY

Having a knowledge about design & architecture is helpful, but not necessary. An effective solution is to hire a custom home builder with in-house architecture and interior designing teams.
