

# Things to Know Before Choosing Your Dream Home

A home is one of the biggest investments someone makes in their lifetime. It is important to choose a property that checks all boxes of being your dream home.

- 01 Estimate your budget & see if the down payment, monthly installments, utility bills, etc. fit your budget.
- 02 Check the distance of the home from your workplace & important amenities such as school, hospital, shopping complex, etc. to know if the location of the home suits you.
- 03 Take into account your future requirements such as whether you are starting a family, & analyze if the size of the home will suffice your needs.
- 04 Do check the amenities, features, specifications and layout of the house you plan to buy.
